

# Data Wireless Connect

**Our wireless broadband plans give you freedom and value and you can choose from a range of included data options.**

With wireless broadband capability you're no longer chained to an office or a network cable; your wireless modem enables you to access emails and the internet without external cables. With the correct setup, you can even tap into resources on your office computer or server when you're out on the road. Our Wireless Connect plans deliver flexibility in the way you can access services, as well as a range of included data options to suit your needs. Wireless broadband gives you new levels of freedom and choice.

## Compact wireless modem

The smooth, compact and high speed capability of our wireless modem makes it simple to access the internet while you're on the move. The standard USB interface enables the modem to be used on your laptop or desk computer.

## Terms and conditions

1. Plans are only available on a 24 month contract and include a \$0 upfront wireless modem. The wireless modem included within your plan is as specified on your application form and must be obtained from Community Telco at the time of sign-up. Colour and style of wireless modem may vary from images used in this brochure.
2. The service is available to customers who connect to a new wireless broadband service. All applications for the service are subject to credit assessment and acceptance.
3. The minimum cost of WB3GBC over 24 months is \$958.80, and the minimum cost of WB6GBC over 24 months is \$1,438.80, the minimum cost of WB10GBC over 24 months is \$2,878.80. Fees apply for early termination of fixed term contracts.
4. Your pricing plan sets out the amount of included data that you can download and upload in a billing month. Data usage will be counted in kilobytes, where 1000KB = 1MB and includes both uploads and downloads.
5. Maximum download speed on 3G/HSDPA is 3MB/sec. This represents maximum possible connection speed. Actual speed achieved will vary depending on how far you are from the mobile tower, configuration and quality of your connection, the number and type of services being used in the connection area, your computer's hardware and software setup, and the configuration of any computer you are trying to access remotely.
7. The service as described is only available within our selected GSM or 3G/HSDPA coverage area and is subject to network availability. Please refer to [www.optus.com.au/coverage](http://www.optus.com.au/coverage) for full coverage details.
8. You can also use the service to connect to the internet outside the 3G/HSDPA areas, within our selected GSM network areas. Where only GSM coverage is available you will not experience broadband speeds.
9. The service is only available for use with a Community Telco supplied SIM card and approved wireless data modem.
10. These wireless broadband plans may only be used to access data services. You cannot use the supplied SIM card to access other services such as voice calls, international voice calls, voicemail and calls to 1300 and 1900 numbers, or send and receive SMS.
11. If the supplied SIM card is used in an alternate modem it will count towards your plan's data allowance.
12. The equipment you use to access your wireless data service (e.g. your laptop) must meet the system requirements advised by us. Full details of applicable system requirements are available on request.

This price list is effective 15<sup>th</sup> March 2011. All prices include GST.

For full terms and conditions please refer to our Standard Form of Agreement and Acceptable Use Policy, copies of which are available at our website: [www.communitytelco.com.au](http://www.communitytelco.com.au). You must adhere to these terms when using this service.
